Rahul Sharma

Bengaluru, India | rahul.sharma@example.com | +91 98765 43210 | github.com/rahulsharma | linkedin.com/in/rahulsharma

EDUCATION

Vellore Institute of Technology Vellore, India
B.Tech in Computer Science and Engineering, CGPA 8.7/10 *Aug 2022 – May 2026*
Class XII, 92.4 percent, Delhi Public School, 2022

EXPERIENCE

Zoho Corporation Chennai, India
Software Engineering Intern *May 2025 – Jul 2025*

- Built a log ingestion service in Go that handled 40k events per minute, cutting indexing lag from 90 seconds to 8 seconds.
- Wrote 63 unit tests for the billing module, raising coverage from 41 percent to 78 percent and catching two rounding bugs before release.
- Replaced a nightly batch job with an incremental worker, reducing database load by 35 percent.

PROJECTS

CampusRide React, Node.js, PostgreSQL
Ride sharing for a 12,000 student campus, 1,200 active users *github.com/rahulsharma/campusride*

- Built a matching algorithm that reduced average wait time from 11 minutes to 4 minutes at peak hours.
- Deployed on a single 2GB VM with Redis caching, holding 300 concurrent users at 120ms median response.
- Interviewed 14 students before the first release, then cut the signup flow from 6 steps to 3 after 9 of them abandoned it.

AlgoViz TypeScript, WebAssembly
Interactive visualiser for 11 graph and sorting algorithms *algoviz.example.dev*

- Ported the layout engine to WebAssembly, rendering 10,000 node graphs at 60fps in the browser.
- Used by 300 students across two college batches, with 40 percent returning within a week.

SKILLS

Languages: C++, Python, Go, JavaScript, SQL
Tools: Git, Docker, Linux, PostgreSQL, Redis
Fundamentals: Data structures, algorithms, operating systems, DBMS, computer networks

ACHIEVEMENTS

- Rank 412 of 100,000+ participants, TCS CodeVita Season 12, 2025 (top 0.4 percent).
- Finalist, Smart India Hackathon 2025, among 15 teams selected from 900 submissions.
- Codeforces rating 1650, Specialist, 340 problems solved across Codeforces and LeetCode.
